PETITION FOR CORRECTED FILING RECEIPT

BOX DAC
Commissioner for Patents
U.S. Patent and Trademark Office
Washington, DC 20231

Sir:

Attached is a copy of an updated filing receipt from the USPTO in the above application for which issuance of a corrected filing receipt is respectfully requested.

The attached copy of the updated filing receipt has been highlighted, with the correction to be made, which is provided in detail below.

There is an error with respect to the following data:

The filing date is incorrect. The correct filing date is December 5, 2001.

In support of the above filing date, attached hereto are the following:

1. A copy of the original filing receipt mailed January 23, 2002, labeled Exhibit A, showing the correct filing date of December 5, 2001,
2. A copy of a Notice of Omitted Items mailed January 23, 2002, labeled Exhibit B, noting that Figure 10D described in the specification has been omitted from the application.
3. A copy of a Preliminary Amendment bearing a certificate of mailing of February 1, 2002, labeled Exhibit C, in which the reference to omitted Figure 10D was cancelled from the specification as required by Section III of the Notice of Omitted Items.

Since a petition under Section I or II of the Notice of Omitted Items, Exhibit B, was not timely filed in reply to that Notice, it is respectfully submitted that the application should maintain a filing date as of the date of deposit of the application papers in the USPTO (*i.e.*, December 5, 2001) pursuant to Section III of the Notice.

Accordingly, applicants respectfully request the issuance of a corrected filing receipt in order to correct the filing date as noted on the enclosed updated filing receipt for the above application.

The correction is not due to any error by the applicants and no fee should be due.

In the event any fees are due in connection with the filing of this request, the Commissioner is authorized to charge those fees to our Deposit Account No. 18-0988.

Respectfully submitted,

RENNER, OTTO, BOISSELLE & SKLAR, LLP

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

NOTICE OF OMITTED ITEM(S) IN A NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

A filing date has been accorded to the above-identified nonprovisional application papers; however, the following item(s) appear to have been omitted from the application:

- Figure(s) 10D described in the specification.

I. Should applicant contend that the above-noted omitted item(s) was in fact deposited in the U.S. Patent and Trademark Office (USPTO) with the nonprovisional application papers, a copy of this Notice and a petition (and \$130.00 petition fee (37 CFR 1.17(h))) with evidence of such deposit **must** be filed within **TWO MONTHS** of the date of this Notice. The petition fee will be refunded if it is determined that the item(s) was received by the USPTO.

II. Should applicant desire to supply the omitted item(s) and accept the date that such omitted item(s) was filed in the USPTO as the filing date of the above-identified application, a copy of this Notice, the omitted item(s) (with a supplemental oath or declaration in compliance with 37 CFR 1.63 and 1.64 referring to such items), and a petition under 37 CFR 1.182 (with the \$130.00 petition fee (37 CFR 1.17(h))) requesting the later filing date **must** be filed within **TWO MONTHS** of the date of this Notice.

III. The failure to file a petition (and petition fee) under the above options (I) or (II) within **TWO MONTHS** of the date of this Notice (37 CFR 1.181(f)) will be treated as a constructive acceptance by the applicant of the application as deposited in the USPTO. **THIS TWO MONTH PERIOD IS NOT EXTENDABLE UNDER 37 CFR 1.136(a) or (b).** In the absence of a timely filed petition in reply to this Notice, the application will maintain a filing date as of the date of deposit of the application papers in the USPTO, and original application papers (i.e., the original disclosure of the invention) will include only those application papers present in the USPTO on the date of deposit.

In the event that applicant elects not to take action pursuant to options (I) or (II) above (thereby constructively electing option (III)), amendment of the specification to renumber the pages consecutively and cancel incomplete sentences caused by any omitted page(s), and/or amendment of the specification to cancel all references to any omitted drawing(s), relabel the drawing figures to be numbered consecutively (if necessary), and correct the references in the specification to the drawing figures to correspond with any relabelled drawing figures, is required. Any drawing changes should be accompanied by a copy of the drawing figures showing the proposed changes in red ink. Such amendment and/or correction to the drawing figures, if necessary, should be by way of preliminary amendment submitted prior to the first Office action to avoid delays in the prosecution of the application.

PRELIMINARY AMENDMENT

Commissioner for Patents
U.S. Patent and Trademark Office
Washington, DC 20231

Sir:

Favorable consideration of the above application is respectfully requested in
view of the following amendments and remarks.

In the Specification

Please rewrite the paragraph beginning at page 9, line 10 with the following
rewritten paragraph:

Figs. 10a-10c are schematic illustrations of another method of making the light
reflective and transmissive surfaces of the transreflectors shown in Figs. 1 and 2;

A marked-up version of the above amended paragraph is included in an Appendix attached hereto.

REMARKS

In the Notice of Omitted Items mailed January 23, 2002 (copy enclosed), it was noted that Figure 10d described in the specification was omitted from the application.

Upon review, it has been determined that Figure 10d was incorrectly described in the specification. Accordingly, the description of the drawings in the specification has been amended to delete the reference to Figure 10d so that the drawing description in the specification corresponds to the drawing figures as originally filed in the USPTO.
